This designed document outlines the key features, roadmap and development plan for the Gamerfi centralised app.

APP

Imagine an App specifically dedicated to decentralized finance (DeFi) applications – a one-stop destination where users can explore, download, and interact with a diverse range of gaming products, related on blockchain technology.

Users can discover a wide array of DeFi applications.

MAIN FEATURES

REGULAR UPDATES
AND MAINTENANCE

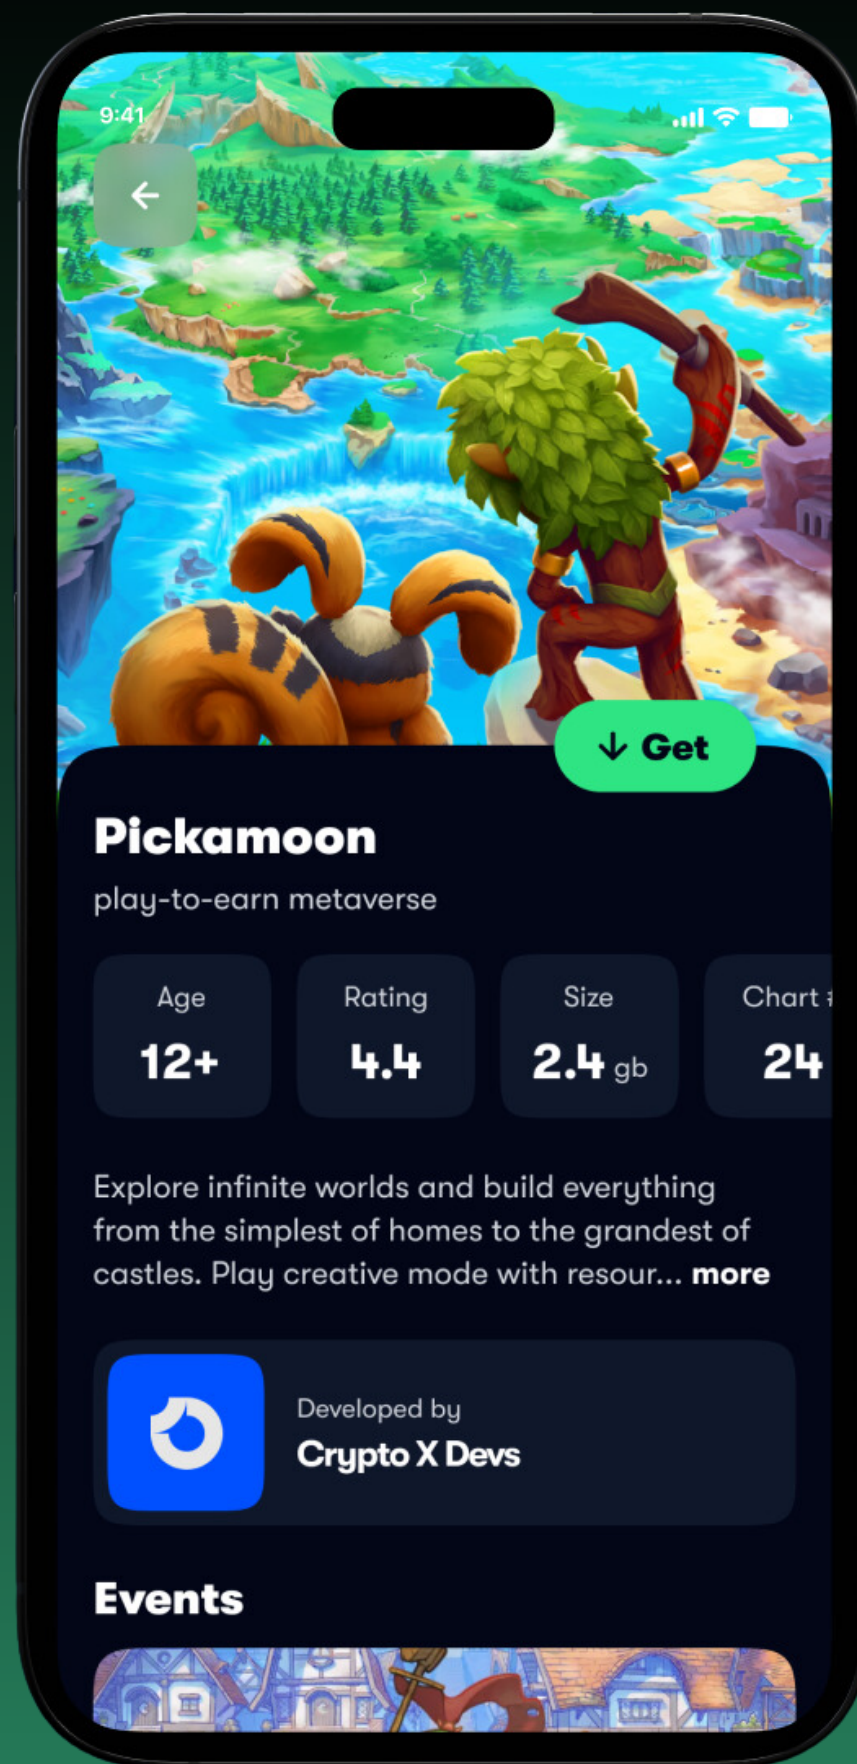

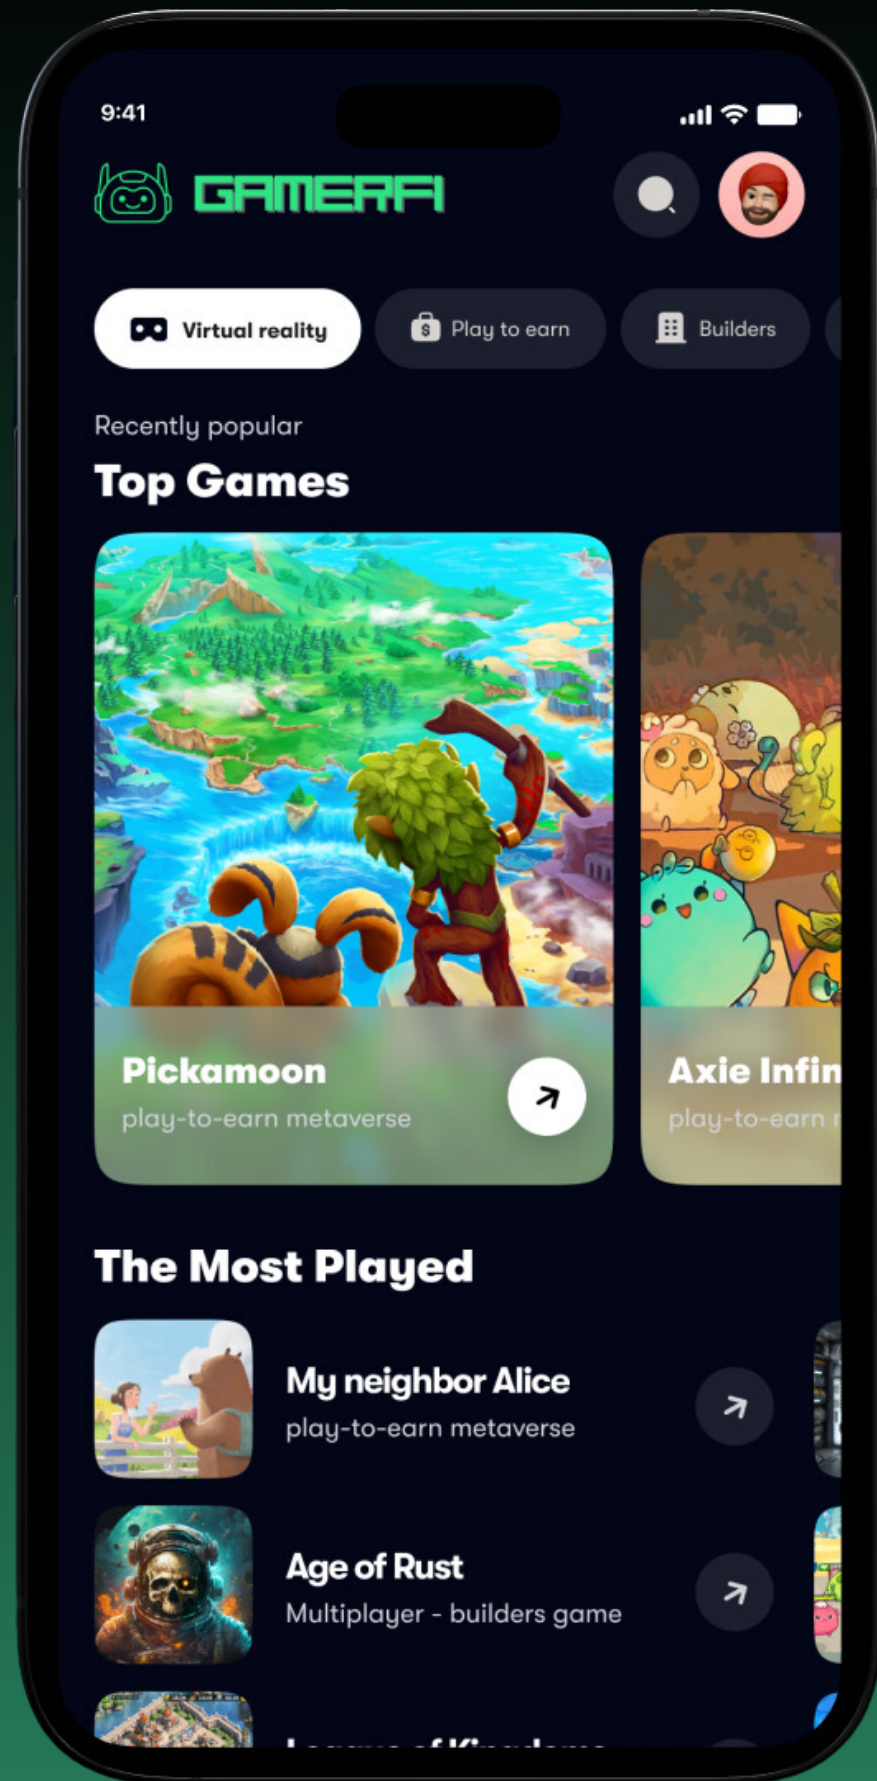

WALLET INTEGRATION

GAMERFI TOKEN TO
SUPPORT IN-APP
PURCHASES FOR ALL
GAMES IN PORTFOLIO

RATINGS AND REVIEWS

APPS UNDERGO
THOROUGH AUDITS

*ENJOY DEFI
GAMING
PRODUCTS*

GAMERFI TOKEN TO SUPPORT IN-APP PURCHASES FOR ALL GAMES IN PORTFOLIO

A central app will be created to list all supported games, similar to the Google Play Store, where with GAMERFI token users can browse and download the different games.

RATINGS AND REVIEWS

Users can leave reviews and ratings for each DeFi app, providing valuable feedback to the community. This fosters transparency and helps users make informed decisions about the reliability and effectiveness of different applications.

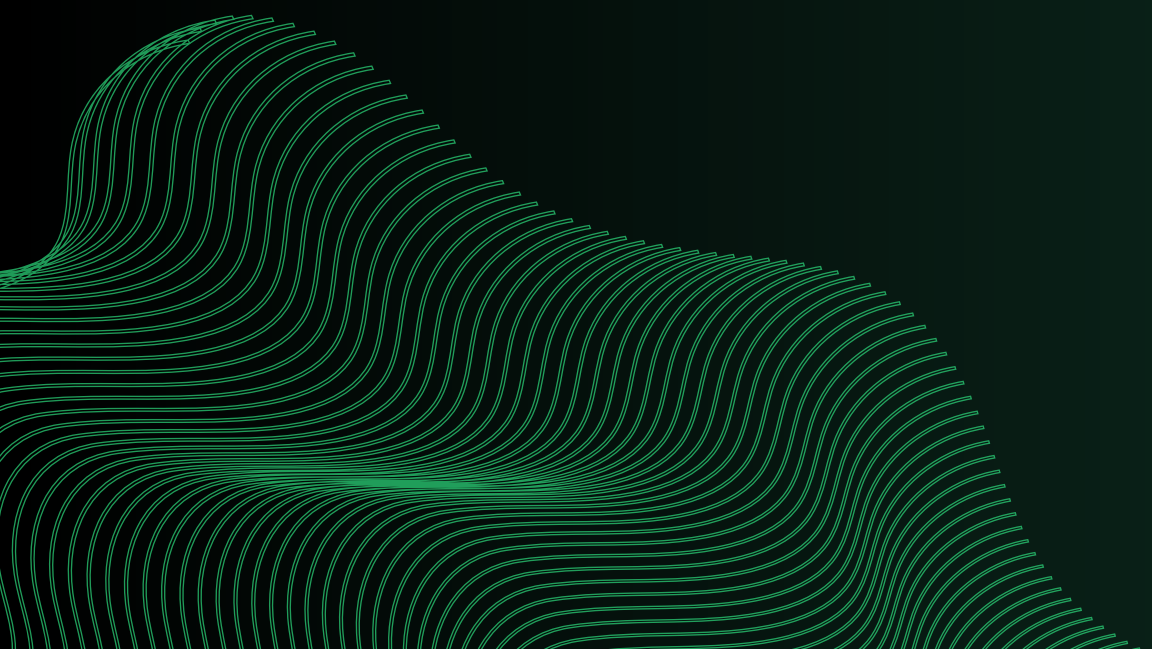

WALLET INTEGRATION

The Gamerfi app seamlessly integrates with users' crypto wallets, allowing them to connect and manage their funds across multiple DeFi apps.

REGULAR UPDATES AND MAINTENANCE

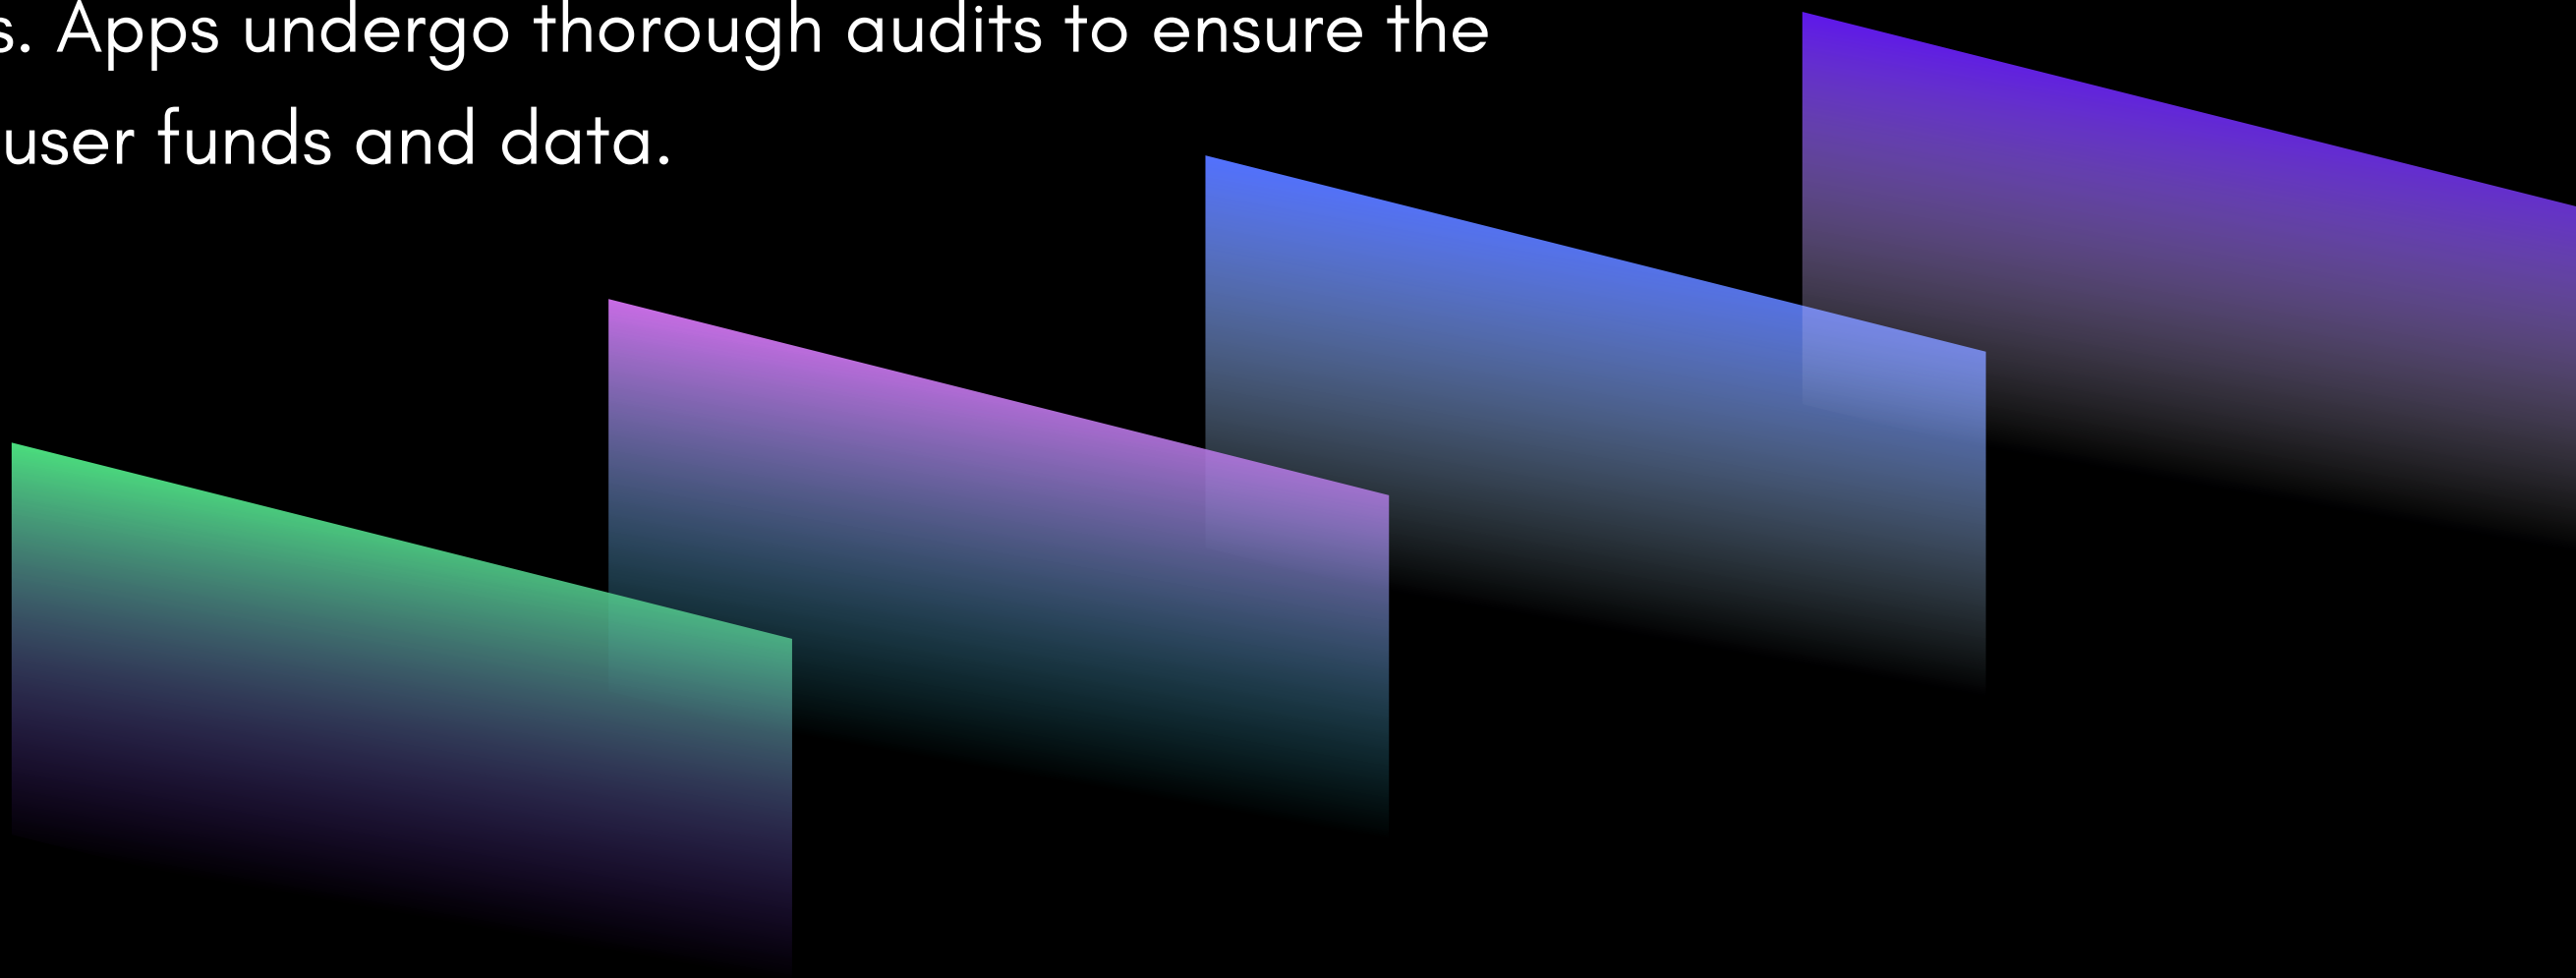

Regular updates to introduce new features, support additional wallets and ensure compatibility with the latest advancements in the DeFi space. Ongoing maintenance is crucial for addressing security vulnerabilities promptly.

APPS UNDERGO THOROUGH AUDITS

Emphasis is placed on security, and the Gamerfi only features applications that adhere to strict security standards. Apps undergo thorough audits to ensure the safety of user funds and data.

WORLD OF GAMERS
